Contents of volume 63

Research papers

F.J. Diego-Rasilla (Spain)
Influence of predation pressure on the escape behaviour of *Podarcis muralis* lizards 1

R. Lalonde, J. Eyer, V. Wunderle and C. Strazielle (France, Canada)
Characterization of NFH-LacZ transgenic mice with the SHIRPA primary screening battery and tests of motor coordination, exploratory activity, and spatial learning 9

A. García-Gutiérrez and J.M. Rosas (Spain)
Empirical and theoretical implications of additivity between reinstatement and renewal after interference in causal learning 21

V. Fourcassié, C. Bredard, K. Volpatti and G. Theraulaz (France)
Dispersion movements in ants: spatial structuring and density-dependent effects 33

S.M.M. Vasconcelos, V.S. Nascimento, C.R.A. Nogueira, C.M.A.G. Vieira, F.C.F. Sousa, M.M.F. Fonteles and G.S.B. Viana (Brazil)
Effects of haloperidol on rat behavior and density of dopaminergic D2-like receptors 45

R.J. Matos, T.M. Peake and P.K. McGregor (Denmark)
Timing of presentation of an audience: aggressive priming and audience effects in male displays of Siamese fighting fish (*Betta splendens*) 53

Research papers

W. Pisula (Poland)
The Roman high- and low-avoidance rats respond differently to novelty in a familiarized environment 63

J.N. Weatherly, B.M. King and E.L. Uran (USA)
Upcoming food-pellet reinforcement alters rats' lever pressing for liquid sucrose delivered by a progressive-ratio schedule 73

C. Salum, A.C. Roque-da-Silva and S. Morato (Brazil)
Conflict as a determinant of rat behavior in three types of elevated plus-maze 87

C.M. Thorpe, M.E. Bates and D.M. Wilkie (Canada)
Rats have trouble associating all three parts of the time–place–event memory code 95

Review

G. Beauchamp (Canada)
Group-size effects on vigilance: a search for mechanisms 111

Commentaries

C.L. Arenz (USA)
The group size effect on vigilance: many unanswered questions 123

J. Burger (USA)
The search for mechanisms for group size effects on vigilance 125

G. Roberts (UK)
The group-size effect in non-feeding animals 127

doi:10.1016/S0376-6357(03)00122-0

J. Lazarus (UK)
Vigilance and group size: early studies, the edge effect, secondary defences, the double advantage trade-off and the future 129

A. Barbosa (Spain)
Group size effects on vigilance: we need more bricks in the wall 133

P.A. Bednekoff (USA)
Testing explanations of the group size effect on vigilance: let's be direct 135

A. Treves (USA)
Modeling vigilance remains unrealistic 137

M. Bekoff (USA)
Where's the brain? Geometric and cognitive underpinnings of group-size effects on vigilance 139

Reply
G. Beauchamp (Canada)
Group-size effects on vigilance: a search for mechanisms 141

Obituary
F. Cézilly (France)
Jean-Pierre Desportes (1943–2001) 147

Research papers
T.J.S. Balsby and T. Dabelsteen (Denmark)
Male calling between courtship sequences in whitethroats: a way to counter intrusions from neighbouring rivals 149

L.G. De la Casa, E. Diaz and R.E. Lubow (Spain, Israel)
Effects of post-treatment retention interval and context on neophobia and conditioned taste aversion 159

Short communication
B.B. Craft, A.J. Velkey II and A. Szalda-Petree (USA)
Instrumental conditioning of choice behavior in male Siamese fighting fish (*Betta splendens*) 171
